De-Snaring Report for March, 2013

Monthly Summary

Chui Team March 2013 Report Summary

During the month of March Chui team patrolled Triangle area, Kenani, Kanga, Mang'elete and along Mtito river park boundary. Triangle centered much of our work and concern since it covers big area laden with many known poaching hot spots and other illegal activities. In this area, the team managed to arrest poachers with bows and poisoned arrows, lifted snares which targeted both small and big game which construed raising levels of poaching. Whilst patrolling at Kanga area the team recovered a bow with three poisoned arrows which we believed was dropped by an escaping poacher after sensing our presence. Chui team witnessed high cattle influx in the park at Mang'elete area where we managed to arrest a herdsman and man collecting firewood in the park. Surprisingly the team found a pail full of chang'aa (alcohol) brew in the park near mtito river park boundary. This narrowed our operation down to an unplanned long ambush where we managed to arrest two men whom latter we found out to be the owners of the alcohol. We further searched the area and found that charcoal burning and logging was rife.
