Thin Wire	Small	Scattered	2
Thin Wire	Small	Cluster	14

Total Snares Collected: 16

Mtito/Chui Team

De-Snaring Report for September, 2013

Monthly Summary

CHUI TEAM SEPTEMBER 2013 MONTHLY SUMMARY.

The team continued with its operations as usual after a 15day off break.

Mangelete area, Athi River and Triangle areas were among the places that received most of the attention from the team. In these areas, the intensity of illegal activity remained minimal as the presences of the team's visits to the areas were felt hence less human activity sighted. The team also concentrated its operations along the Mtito River and the Triangle areas where 3 apprehensions were made. The culprits were booked and charged for trespass and poaching respectively. The team was also able to lift freshly set snares within the area.

Bondenii and Chyulu pump areas also received attention from the team. These areas were calm and recorded very minimum signs of human interference, however, the team was able to sight 3 fresh buffalo carcass within the area during patrol.

Compiled by;
Stephen Liyayi.
