De-Snaring Report for May, 2012

Monthly Summary

The Chyulu and Kenze Teams carried out joint operations throughout the month. The Ndwa - Manyanga areas remained the focal points. The team sighted several elephants in the area, which called for more careful patrols in order to ensure their safety. On a similar note, three adult Elephants are currently frequenting the Kenze base. Generally, illegal entry for fuel wood collection and woodcarving remains to be the most common offences. In total, the team managed 11 apprehensions and lifted slightly over 30 small snares during the month's operations.

Mikuyuni Secondary and Kithasyu Primary schools benefitted from the team's school trip arrangement, both trips being taken to Tsavo West National Park. Key places such as the Shetani Lava, Mzima Spring and Chaimu hill were visited, and the students enjoyed their game drives.
