Monthly Summary

Mtito Team

De-Snaring Report for March, 2011

Monthly Summary

The team was off-duty as from the 4th-18th March. The Team leader had a chance to participate in a case of the Tsavo Mobile Veterinary Unit with treating of a sick elephant at the Kimana area. After resuming duty the team camped at Mtito Gate and the Chyulu pump. From these areas the team was able to carry out effective patrols on both the Triangle and Mang'etele areas. The team noted that the number of illegal incidences had decreased in both areas and of notable interest is the decrease in the number of snares. Charcoal burners are also somewhat being controlled with the help of frequent aerial support which are then followed by a foot patrol thus making it harder for illegal activities of any kind to persist.

The team was invited to attend two functions which included the Sports day at Mtito Andei Primary School and also the Vice –President's function at Mtito Andei. The Team leader took these opportunities to spread the message of conservation to the people.
