### De-Snaring Report for April, 2013

#### Snares Collected

Snare Type	Snare Size	Snare Description	No. Confiscated
Medium Wire	Medium	Cluster	2

<b>Total Snares Collected:</b>	<b>2</b>
--------------------------------	----------

## Tiva/Nyati Team

### De-Snaring Report for April, 2013

#### Monthly Summary

NYATI TEAM REPORT FOR APRIL 2013

Areas patrolled:

- Tundani
- Kasala fence line
- Lesilau Dam

Findings

The team was off duty for the first two weeks of the month. Upon resuming work, there were no KWS rangers to accompany the team due to an operation that was taking place in the eastern side of the Park. Due to this restriction the team was only able to undertake patrols for eight days during the course of the month.

The team put more effort patrolling at Tundani area which was noted as a poaching hotspot during the month. Several shooting blinds were found and destroyed. The team also found a recently used poacher's hideout and three individuals' footprints were sighted and tracked but the trail grew cold because of the heavy down pour that washed away the tracks.

Kasala fence line was patrolled with logging sighted taking place. An old shooting blind was found and destroyed. The team then visited Lesilau Dam area where a recently used shooting blind was found and destroyed.

Next month the team will put much effort patrolling all the water holes that were sighted as the poachers use to target the elephants while they drink water there.

Report by Paul Kyalo.

## Tiva/Nyati Team

### De-Snaring Report for April, 2013

#### KWS Ranger Participation

Patrol Team	KWS Ranger Name	No. Patrol Days
Tiva/Nyati	Collins, Okoth	7
Tiva/Nyati	Cedric, Isaho	4
Tiva/Nyati	, Moha	3

**Total Man Days of KWS Participation: 14**
