Tiva Team

De-Snaring Report for June, 2012

Monthly Summary

Although the normal desnaring operations have not resumed, this month the team went to Ol-donyo Waus and Lengesim ranches located between Emali and Loitoktok. The team operated jointly with Amboseli/Tsavo Group Ranch Conservation Association, and patrolled Eselenkei, Pai, and Mashuru and Samuri area.

In Eselenkei area the team came across various illegal activities such as logging, firewood collection and charcoal burning. Pai and Samuri areas had a lot of bicycle and foot track used by poachers to transit bush meat to Emali market, the team laid night ambushes but did not manage to arrest the culprits. Human wildlife conflict was also evident in Mashuru area; two stray lion were reported to have attacked livestock, the team went there but the lions had already fled from the area.

Few incidences of illegal activities were recorded in the areas because the land did not have clear cut boundaries between the ranches and community lands, the team then went on off duty on 15th to 30th June 2012.
