Ziwani Team

De-Snaring Report for December, 2010

A team member lifting snares

Ziwani Team

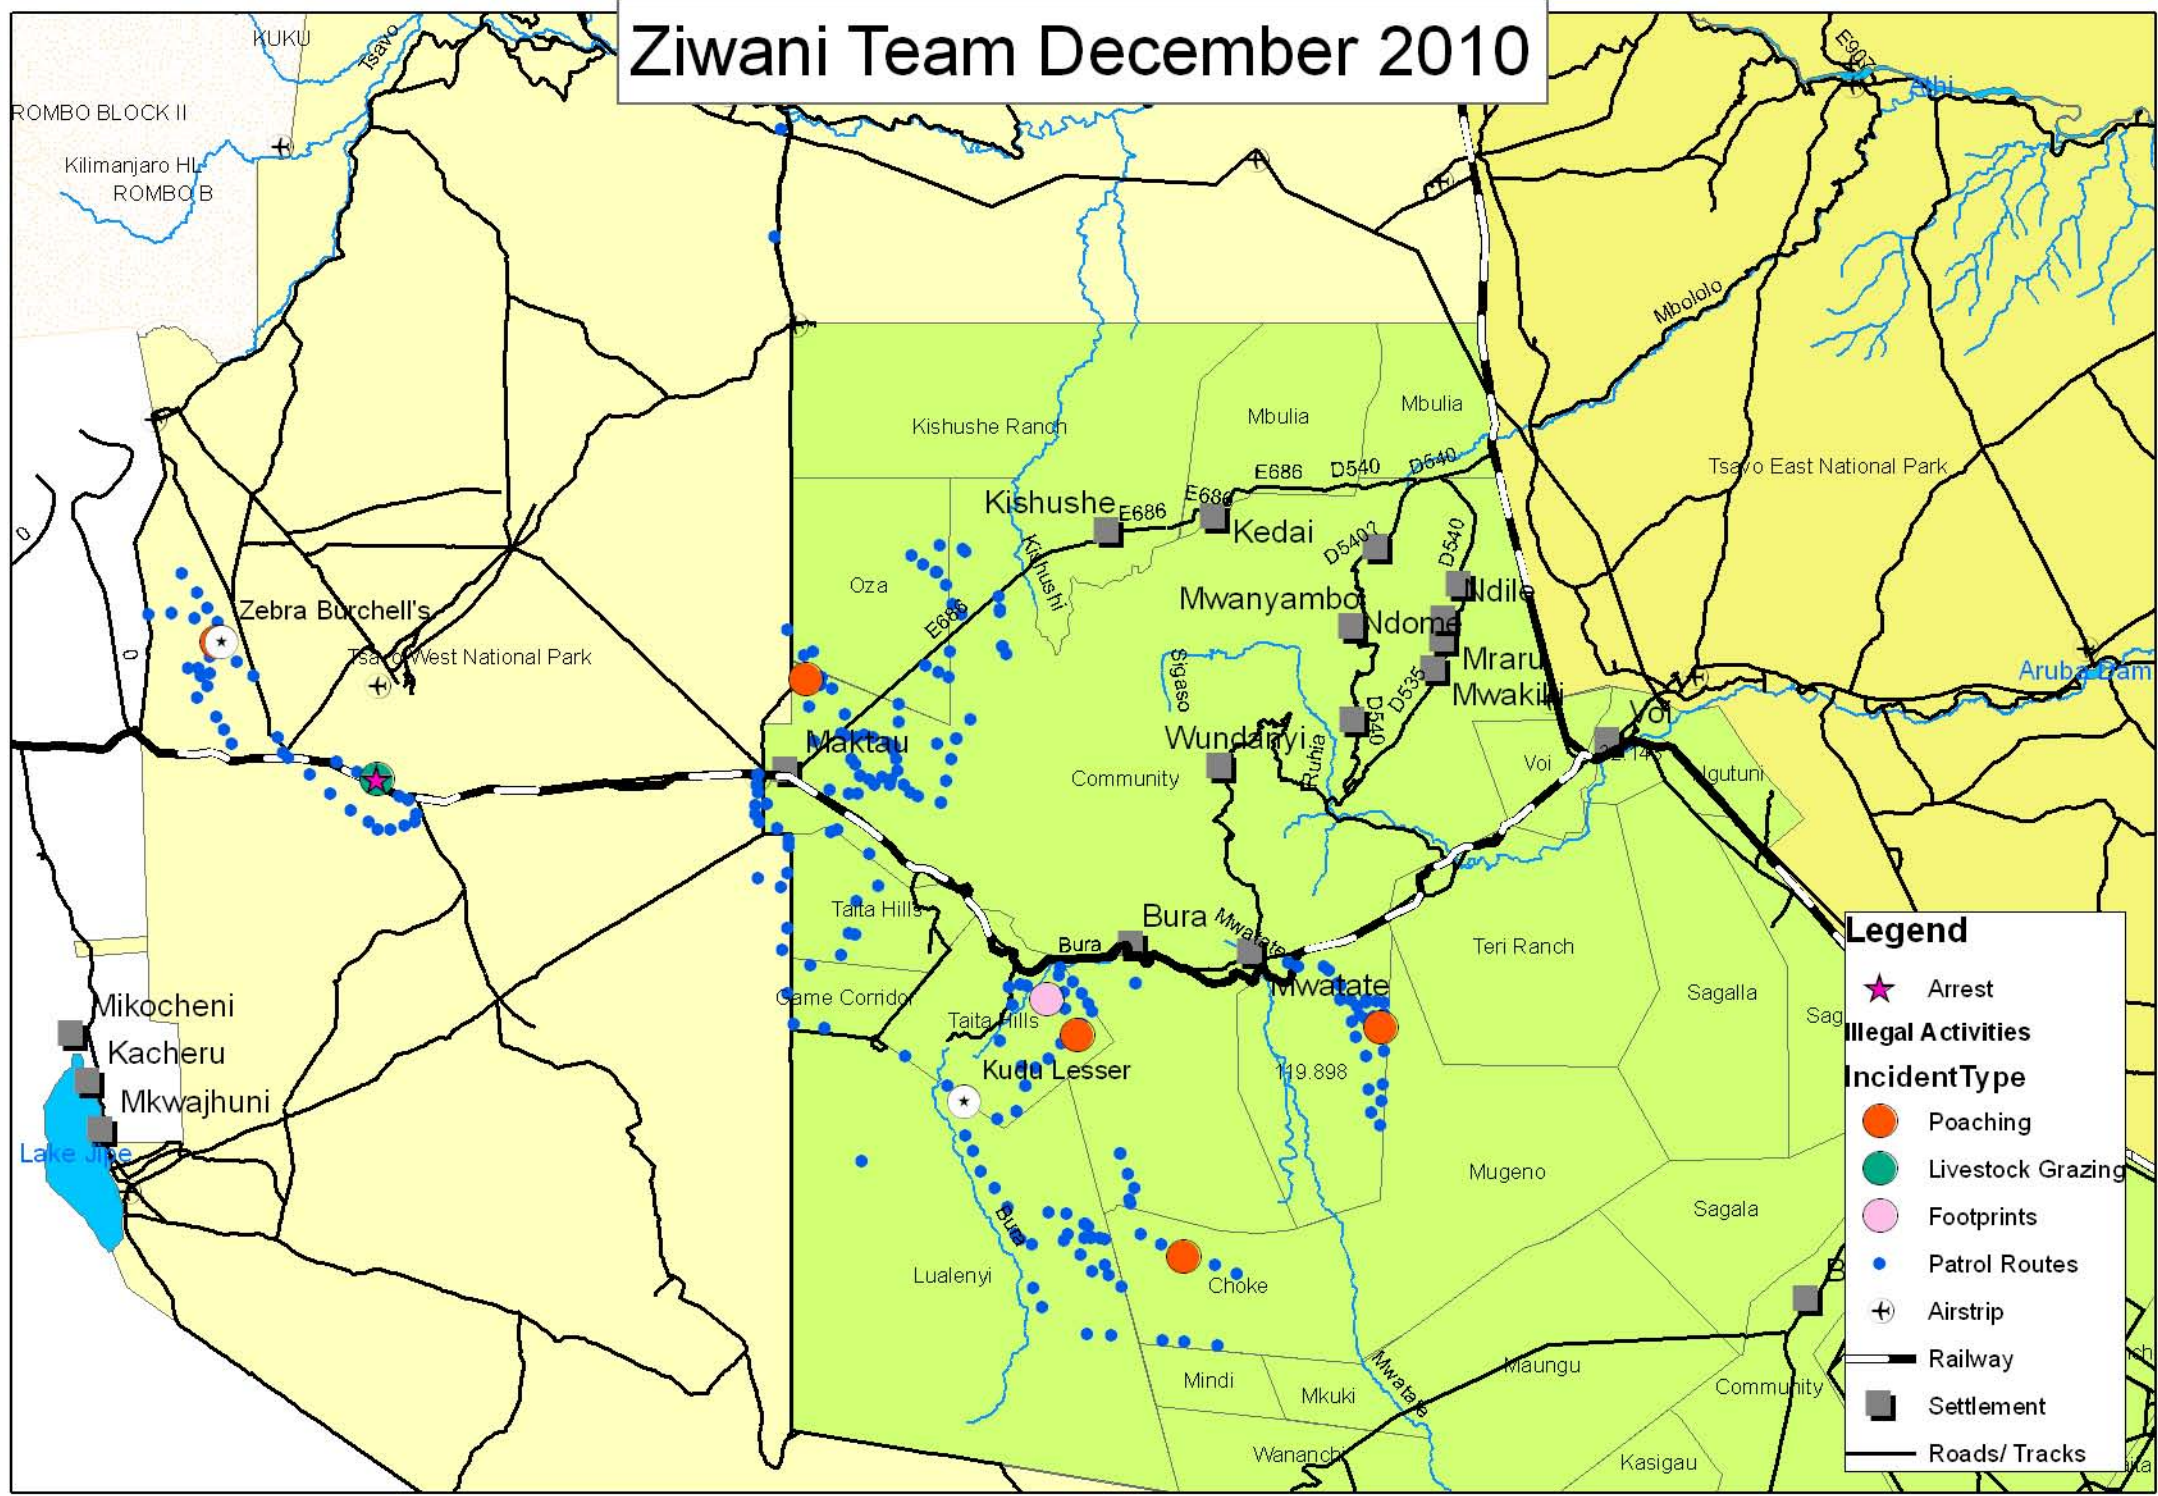

De-Snaring Report for December, 2010

Monthly Summary

Many of the snares collected during the course of the month targeted large game. The Team endured a rather eventful month, beginning with the recovery of 5 elephant tusks from Taita Wildlife Sanctuary. The team was privileged to host the Director Kenya Wildlife Service (Dr Julius Kipngetch) who paid the Team a visit following the ivory recovery. He was shown around by the Ziwani Team Leader, seeing the snares and traps recovered by team as well as shown diversity of snares targeting different game.

The illegal livestock grazing in the Park is still a big problem. The Team arrested a man in the Park with his cattle. Two carcasses were sighted one for lesser kudu (lualenyi ranch) suspected to have been killed by natural causes and the other of a Zebra that was killed by poachers.
