School	Madakini Primary School	School Trip	Maktau

#### Monthly Summary

During the course of the month the team lifted a total of twenty eight (28) snares. Out of which eleven snares (11) targeted big game and seventeen snares (17) targeted small game. The team also treated two elephants with the help of the Tsavo Mobile Veterinary Unit. One of the elephants had an arrow wound near the fore limbs which was heavily infected and the arrow head was removed; the other elephant was lame on one of the hind legs. One poacher was apprehended at Oza Ranch and a miner caught illegally mining inside the Park was also arrested. Three (3) carcasses were sighted, two killed by snares (impala and dikdik), and one old elephant carcass suspected to have died during last year's drought. The tusks were recovered and handed over to KWS. The Team also assisted in fire fighting at the Jipe area which consumed large areas of the park and found two kraals (cattle bomas) in this area.
